Notwithstanding the physical demise in the year 1199, the soul of the great and evil Shogun Yoritomo survived death and hastened to the underworld to muster forces among the legions of the dead. The Eternal One sorely feared the outcome and bade Andabaa, the hag who ferries souls across the Styx, to raise from the dead, the champion of the Heike clan, Yoritomo's archenemy Kagekiyo...
BEHOLD, KAGEKIYO!

I will shatter thine ambition, Yoritomo!

Yoritomo and his men were vanquished once before by Kagekiyo. Now they have secretly withdrawn to the realm called the Dark Side to await the moment of their resurrection. To prevent this dire eventuality, Kagekiyo descends to the Dark Side.

Your destination is THE HEART OF THE DARKSIDE

The fight takes place in seven zones in the Dark Side. Each zone is divided into areas, Kagekiyo enters using the path to the Dark Side, then proceeds northeast through the zones, heading for THE HEART OF THE DARKSIDE.

To clear each area, you must leap over the red shrine gate

Kagekiyo's weapon, naturally, is a sword. You must always move to the right, helping Kagekiyo slash and thrust at the magical beings that assault him. Eventually you will see a red shrine gate. Leap over this and you are clear of the area - unless you are in an area that has two shrine gates. In that case, you will find a different area beyond each shrine gate. At the end of each zone you will encounter a mighty guardian. You must destroy the guardian before you can move on to the next zone.

Ignore the power items at your peril!

When you destroy an enemy, a power item may appear. If you collect the power item, you may find that your sword is unbreakable or that your strength has been restored, so be sure to use them!

ZONE 1 ENTRANCE TO THE DARK SIDE

Obeying the order of the Eternal One, Kagekiyo descends to the Dark Side. First he finds a fiery hell populated by the wandering skeletons of fallen warriors. He must make haste but his way is blocked by a skeleton swordsman brandishing a sturdy weapon. How will Kagekiyo overcome this first obstacle?
